## **President's Comments:**

Well, I'm stuck. I'd planned that my first message would be about appreciation for the folk who made 2018 an outstanding year of Model A adventuring for everyone in our club. But Loura and Sherry did that in their columns in the December Road Runner. And did it well. (You can reread them at our website--nwmomodela.com.)

Their comments about Bob, Terry, Amy, Liz, not to mention their own contributions and those of Doug Scott, who answered the call of family and has "gone to Texas", left little for me to add.

Except I'm aware that this is a unique moment of transition in our club. It's a transition from those having served our club well and faithfully for a long time (some 17 years, in total, for the four)---to those with less time and experience, relatively, at the jobs they are taking on. I doubt this has happened before, at least to this degree.

So, I'm pleased and relieved that the folks assuming those positions--Nelson, Steve, Jody, Lonie, to name a few...are willing and eager to get 2019 underway.

A pretty good example was our recent Christmas Party. Loura, Sherry, Gladys, Mary Anne and Mary Lou put a lot of work into making it an enjoyable event.

Me? no inspirational words or challenges. I'll just keep the meetings on time. Come along. See what we get done. The ride could be a little bumpy. But, hey, Model A's and their people have always been good over bumpy roads. Right?

Bill Matteson, President

*I was going to quit all my bad habits for the new year,  
but then I remembered that nobody likes a quitter*

## **Editor's Comments:**

Time to start a brand new year, are you ready? I hope I am, but time will tell! I guess it doesn't matter, time will keep on marching whither I'm ready or not. That's just called life.

I hope everyone had a wonderful Christmas, I know I did. Just finished a tremendous Christmas dinner, and looking forward to this coming weekend when I get to do it all again for my family's extended Christmas. My family always celebrates the Saturday after Christmas. My folks always said Christmas was when the most kids could make it home, and this way we didn't have to worry about if it was the in-laws turn or my folks turn, we just went both places. It made life a whole lot easier, I can tell you! My folks are gone now, but old traditions continue to hold the family together. Sometimes, the old ways are the best, just like continuing to keep our great old cars in running condition and getting them out on the road as often as possible! (See, you knew I'd find a way to put my above ramblings into Model A terms, didn't you!)

I'm looking forward to all the club events for the new year, hope I'll see you at all of them!

Happy A'ing!

Ever wonder what your Board does? Space allows me to include the meetings from the last Board of Director's meeting from December:

**NORTHWEST MISSOURI MODEL A FORD CLUB BOARD MEETING**  
**Board Minutes**  
**Woodneath Mid Continent Library, Liberty**  
**December 13, 2018 6:00 p.m.**

**Attendees:** Laura Cook, Bill & Mary Lou Matteson, Bill Skaggs, Lonie Hank, Nelson Young, Jody Layne, Steve Talley, Etta Ridgeway, Walt & Mary Anne Jones. Guest: Lyman Ridgeway & John Harmon.

**President:** In welcoming comments, Laura noted the intent in inviting 2019 board officers and appointees to the joint meeting is to smooth the transition into the coming year.

**Secretary's Report:** **Motion to approve the November 15 minute as emailed** by Bill Skaggs, seconded by Jody Layne. Motion Passed. Mary Lou reviewed decisions taken at the November 15 meeting.

**Treasurer's Report :** Starting Balance (11/1/18) \$12,238.49, Income \$2,107.00, Expenses \$97.09, Ending Balance (11/30/18) \$14,248.40. **Motion to accept** By Jody Layne, seconded by Lonie Hank. Motion passed. Nelson reported actions taken in assuming his role as treasurer for 2019. He commented on his work with Bob Martin in transferring Club funds to a new bank account. He highlighted a changed ratio of checking to savings in the new account with the checking balance at \$4,247.40 and savings at \$10,001.00. He said solicitation to advertisers for 2019 Roadrunner issues have been sent.

**Membership:** Lonie said 35 members have paid 2019 dues.

**Other Items:** The remainder of the meeting was given over to a review and updating of position descriptions, work policies and procedure guidelines of the various Club work areas with the objective of creating broader understanding of the job responsibilities of each. Additionally, board members reviewed the Club bylaws. It was noted that adjustments in some sections are needed to conform the bylaws more to current business practices. Motion by Bill Skaggs, second by Steve Talley **that the Board of Directors continue work to restate bylaw language to more closely follow current Club business practices and conditions, with changes presented to Club members at either the January or February monthly meeting.** Motion passed.

Bill Matteson said the Christmas party seemed to be well received although the venue was more crowded than desirable for a crowd of 57. He reported meeting with American Legion Post #58 commander to discuss the Club's coordination with the Legion, as Bob Martin has elected to discontinuing in that role. Bill said Laura has agreed to take on the role as liaison with the Legion in 2019. Bill and Lonie will find how to create a membership roster that can be kept current.

Jody said she wants to begin building an Activities calendar for 2019 and asked for ideas. Bill Skaggs suggested a tour to one of Missouri's covered bridges and possibly to the Jeff City penitentiary. Bill and John Harmon have eyes on a park near Weston for the June 22 picnic.

Etta noted that member Gerald Calder has passed. She has sent Christmas greetings to members who had illnesses in 2018.

Mary Anne is set to promote a new Model A Club jacket available from a St. Joseph vendor. She will encourage members to order name tags.

Laura will make arrangements for a Bingo game at the January meeting; Walt and Mary Anne will serve as greeters.

Meeting adjourned at 8:15 p.m.

Respectfully submitted, Mary Lou Matteson, Secy.

Some of the members up north decorated up their A's and checked out the St. Joseph Parkway Christmas lights.

The Ford River Rouge Complex at Dearborn Michigan took over a decade to build. It was started in 1917 and finished in 1928. At its height, it consisted of around 2,000 acres with 100,000 employees that put out around 4,000 cars per day.

Christmas Party Cheer

By Sherry Wink, Photos by Fred Kiehl & Sherry Wink

What a great time we all had at the Christmas party! Plenty of good cheer, good food, and great entertainment made for a wonderful afternoon! The food was excellent, and although the space was a little small, we didn't seem to have any trouble making it to the buffet tables! Mary Lou and Bill supplied the desserts, and they were delectable! With the flames flickering in the fireplace, and the candles lit on the table, the festive mood enveloped everyone! We all really enjoyed the musical tunings of Pat and Mike O'Connor, Mary Lou's twin brothers. Their version of The Twelve Days of Christmas brought the house down! And Loura crowning Bill as she passed the gavel was the icing on the cake of a fun and happy day!

An excerpt from the 1930 Daniel Low & Co. Jewelry catalog, with an assortment of pins from the catalog:

THE JEWELED ORNAMENT GIVES SMART COMPLETENESS TO THE COSTUME

To add the necessary touch of elegance to her frock requires a jeweled pin or bracelet. From its place as simply a useful accessory, the decorative pin has become a most important detail of dress.

It still performs the old function of enhancing the beauty of the person and adding distinction and dignity, but today it does more than that. The jeweled pin or bracelet, appropriately worn, form the last touch in the perfection of the completed costume.

Every woman should realize this and see to it that her jewelry is in accord with her smartest gown, and not detract from the picture she presents by an inappropriate or out of date jewel.

This is a unique recipe book I ran across on-line. It was put out by the International Silver Company which sold silver goods, and is full of non-alcoholic drinks that apparently will taste much better if you serve it from elegant silver drink sets!

**Grape Egg-nogg**  
For each drink, take one egg, one half cup of grape juice, and powdered sugar to taste. Beat egg yolk and white together with fork. Add sugar and grape juice and frappe in mixer with plenty of fine shaved ice. Pour into tall glass.

**Orange Egg-nogg**  
For each portion, beat one egg thoroughly, add one half cup orange juice, one tablespoonful lemon juice, and sugar to taste. Mix thoroughly and frappe in mixer. Serve in tall glass.

**MIXER SET with Insico Stopper No. 1925**

In this little book we present a number of recipes for delicious non-alcoholic drinks, and since so much depends upon the manner in which they should be prepared and mixed, we show a number of our most popular styles of silverplated mixers, all of which are equipped with the new patented Insico Stopper.

These recipes comprising appetizers for the dinner, egg-noggs and fruit cups for the luncheon table, and lemonades, punches, etc. for the sultry summer's afternoon and evening, have been carefully tested, and each presents a new flavor, a different flavor to tempt and refresh the most capricious palate.

Colgate-Palmolive's history began in 1806 in New York City when William Colgate began selling starch, soap and candles. In 1857, upon Williams death, his son Samuel took over the business. He added more products, such as perfumes and perfumed soap. In 1873, the company began selling toothpaste in a jar. In 1896, Colgate and Company introduced the first roll-up tube toothpaste, selling it as "Colgate Ribbon Dental Care". By 1906 the company was also producing several varieties of laundry soap, toilet paper, and perfumes. In 1928, the firm was bought by Palmolive-Peet Company, whose founder, B.J. Johnson, had developed the formula for Palmolive soap, and the company expanded to sell multiple cleaning and personal hygiene products

**Interesting note: Colgate & Company was a pioneer in establishing international operations, creating a Canadian subsidiary in 1913 and one in France in 1920. In the early 1920s the firm expanded into Australia, the United Kingdom, Germany, and Mexico. Colgate or its successor firm next created subsidiaries in the Philippines, Brazil, Argentina, and South Africa in the late 1920s.**

## Walt's Old Time Tech Tip

Walt Jones, Tech Director

Found in "The Tale Pipe" official Newsletter of the Tylor Model A Ford Club, Tyler Texas. December 2018 issue.

## Back Flush!

By Tom Endy

The cooling system on a Model A Ford can get pretty crudded up with rust, calcium, and also with grease from the water pump. If the radiator has been in service for a long time it is best to remove it and take it to a radiator shop (preferably to one that is knowledgeable of Model A radiators) and have it rodded out.

The engine block and the head are also usually crudded up, especially with rust. This is where a technique called back flushing can be affective. Back flushing of the radiator can also be affective if the cooling tubes are not hopelessly plugged up. The trick is to force water through the system backwards to the direction it normally flows.

Various cleaning solutions have been suggested for use in dislodging the cooling system crud. Some have suggested a combination of oxalic acid with a baking soda rinse. Others have suggested liquid Cascade dishwasher solution. There are also commercial cooling system cleaning agents available from most auto parts stores. Whatever cleaning agent is used, it is best to finish up by back flushing the system.

It has also been suggested that a newly overhauled engine should be back flushed before being connected up to the radiator. A considerable amount of rust can become dislodged inside the water jackets when the engine was hot tanked and in all likelihood is still inside the water jackets, as well as machining chips. If the engine is immediately connected up to the radiator all the loose particles will be dumped into the radiator.

In order to back flush the Model A cooling system some special adapters need to be fabricated. Two plugs with a hole drilled in them must be made up, one to fit the large upper radiator hose, the other to fit the smaller lower radiator hose. The holes in the plugs should be tapped with a pipe thread. The plugs are then fitted to provide garden hose connections. The two plugs can be cut from steel or aluminum round stock. All the other hardware can be obtained from a local hardware store. Standard Model A radiator hoses and clamps are used to connect up the flushing apparatus.

To back flush the radiator, connect the adapters to the two radiator hose bibs. With a garden hose connected to the bottom hose bib adapter run water though the radiator backwards to the normal flow. Be sure to put the radiator cap on. A suggestion; connect the garden hose to your laundry machine hot water spigot and back flush with hot water. A second garden hose may be connected to the top radiator hose bib adapter to carry the exiting water to a suitable drain.

Shown above are the two adapters and the water pump blanking plate. The long hose is the upper (larger diameter) hose. The short hose is the lower (smaller diameter) hose.

To back flush the engine, disconnect the radiator from the engine and install the two adapters to the engine. The large adapter is connected to the water outlet on top of the head. The small adapter is attached to the water inlet on the left side of the block. It is also suggested that the water pump be removed and a blanking plate be installed over the opening in the head.

Connect a garden hose from the hot water spigot to the large adapter on top of the head. Connect a second hose to the smaller adapter on the side of the block and lead it off to a drain. Begin the back flushing. You can also start the engine up to add some vibration if desired. The hot water will not only aid in flushing the engine, it also prevent the possibility of cracking block with the use of cold water if you run engine.

**Using Modern Technology to Learn to Work on Old Technology!**

Have you ever wondered how to do something on a Model A, but didn't have anyone around to show you how? Well, with the internet, there is a lot of help out there! The internet has a lot of great sites to visit and learn Model A basics, from tune-ups to brake jobs.

One of the places I'm starting to see more of is YouTube videos. Sometimes there is nothing like seeing something done, instead of looking at pictures in a book.

Here's a new video just put up by Mark Hayward. It's directed toward helping beginners and young people learn to work on their own Model A's, but I'm sure it will be interesting for any Model A'er. Check it out, it's pretty good, I learned from it!

If you haven't paid your 2019 membership yet, it past time!  
 Don't miss out on the fun, or the next Newsletter!

Helping Make Retirement Dreams a Reality!

While most of us realize the importance of retirement planning, sadly, it is something that many of us do not take seriously. Recent studies have shown that one in three Americans have no retirement saving and an additional 23% have less than \$10,000 in retirement savings. Only 53% of working Americans are covered by a retirement plan at work; 23% are covered by a pension and 40% have access to a retirement savings plan, such as a 401k. However, out of those 40%, only 44% actually take advantage of their retirement savings plan. The 47% of Americans not covered by a retirement plan at work have to take accountability of their retirement savings and, according to the studies, many simply do not.

Some people may simply think that they will live comfortably off their social security. Well, if you can maintain your lifestyle on the approximate 40% of their income that social security will likely replace, then you are correct! Frankly, I don't think many can. Plus, it is expected that without legislation, the Social Security Trust Fund will run out of money in 2034. At that time, benefits will have to be paid by the taxes paid by people in the workforce. With 10,000 baby boomers retiring per day, it is projected that these taxes will only support 79% of the benefits being paid. Which will lead to either reduced benefits, or more likely in my opinion, higher payroll taxes for employers and employees.

People often decide that they are going to draw social security as soon as they can, at 62. This is a decision not to be taken lightly. It first reduces your full retirement benefit by 26.67% for the rest of your life. It also reduces the amount your spouse can receive; if you hold off drawing social security until full retirement age (67 for those born in 1960 or later), the lower earning spouse is entitled to at least half of the benefit of the higher-earning spouse. Secondly, it limits the amount of additional income you can make to \$17,040 until you reach full retirement age. If you exceed that amount, \$1 of your social security benefit is taken away for every \$3 above the limit. It is quite likely that if you elect early retirement, you are quite likely exiting the work force in your peak earning years, potentially hindering your ability to live your retirement years in the lifestyle you would like.

A key consideration on whether to draw your social security early is your honest assessment of your longevity. The break-even on whether to draw social security at 62 vs. your full retirement age is approximately 17 years, or at 79. If you wait to draw social security until 70, the break-even is approximately 82. Let's use an example of a person eligible for \$25,000 of social security at 62. If he/she waits until full retirement age of 67, that benefit would be \$35,766 and at 70 it would be \$43,720 or a difference of \$18,720 a year. In addition, your spouse would receive half of that benefit if hers/his calculated benefit is less than that. Also, keep in mind that the surviving spouse bumps up to the decedent spouse's benefit if it is higher.

The decision on when to begin drawing on social security is a personal one, yet one of the most important decisions you will make in your retirement planning. While the government has tightened some loopholes on strategies to maximize your benefit. If you would like to discuss your specific situation, please feel free to contact me at 816-746-0080 for a complimentary consultation.
